

YOUR MEETINGS & CALLS LIVE WHERE YOUR TEAM WORKS.

INTEGRATE GOTOMEETING WITH MICROSOFT TEAMS FOR LIMITLESS COLLABORATION

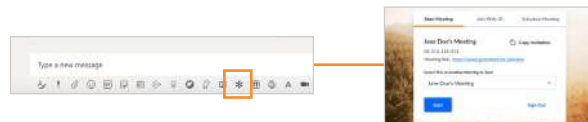

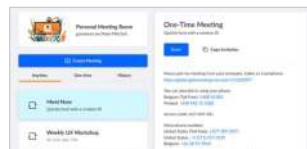

When you integrate GoToMeeting with Microsoft Teams, your meetings & calls will live where your team collaborates. Every tool has a purpose, and with the latest integration users can now maximise productivity by choosing the right meeting solution for the task at hand. Your organisation may use Teams for file sharing, chat and small internal discussions. However, when it comes to important sessions with executives, customers, partners, analysts, investors and more, GoToMeeting ensures fast, high quality, and reliable large meetings for up to 250 people inside and outside your organisation.

Meetings is what we do - With 15 years of driving innovation in video conferencing, GoToMeeting was developed from the ground up as a purpose-built collaboration tool, making it as easy for a first time user to partake in a successful meeting as it is for an everyday user. GoToMeeting also delivers features for customers that act as a great complement to Microsoft Teams. Important capabilities such as 25 simultaneous webcams, commuter mode, screen to pdf, smart assistant, multi screensharing, call-me, and integrated audio make GoToMeeting a great solution for effective formal business meetings.

A BETTER, MORE SIMPLE MEETING EXPERIENCE SO YOU GET MORE DONE FAST WITHOUT LEAVING MICROSOFT TEAMS

The dashboard of the GoToMeeting integration can be accessed in the added apps area of MS Teams. Users must sign in using their GoToMeeting credentials to gain access to the dashboard.

- A user can join any meeting in their list or schedule a new meeting from the dashboard.
- By clicking on the daisy icon in a messaging extension a user can start, join and schedule a meeting via GoToMeeting.
- Use chat bot commands in personal chats, group chats, or in the chat with the bot to start or join any GoToMeeting

Reliable –

GoToMeeting is committed to industry leading 99.95% uptime, ensuring that your meetings go off without a hitch every time.

Easy –

GoToMeeting is a frictionless way to connect internally or externally. With one click of a button, you can start building better relationships and drive business outcomes by meeting face to face, sharing presentations and chatting with colleagues or customers.

Efficient –

A bandwidth strain on an organisation's network can have a negative impact on other day to day tasks such as email and sales operations.

Customer support –

GoToMeeting's customer care is managed and operated in-house and staffed with our highly-skilled support team.

Cost savings –

GoToMeeting's pricing plans are all-inclusive and transparent. There are no hidden costs and with GoToRoom, you get hardware bundled with professional, user-friendly video conferencing in one simple and affordable kit.
