

# People work better together

---

## Datasharp Voice for Teams

Transforming Microsoft Teams into a full Cloud Phone System that works anywhere, on any connected device.

# Datasharp Voice for Teams is more than a cloud phone system

- **Datasharp Voice for Teams works within Microsoft Teams.**

You'll get all of the functionality of a cloud based phone system so you can take external calls, internal calls, transfer calls... you can set up auto attendants, hunt groups, voicemails to email all **within an intuitive app interface.**

- **Datasharp Voice for Teams works on any device -** smartphone, tablet, laptop, PC - no special equipment required to get you connected to your team. **Work from anywhere, 24/7.**

- **Bring back teamwork with Microsoft Teams collaboration tools**

- react with emojis and GIFs. Communicate instantly, celebrate successes and smash goals.

- **Experience the joy of everything in one place.**

Using Microsoft Teams allows you to keep and **manage all of your communications together:** instant messaging, video calls, screen sharing, emails, document collaboration and Office365 integration.

- **With Datasharp Voice for Teams you receive calls on your usual phone number.** No more telephone tennis - keep everyone sweet by getting them **connected to the right team member wherever they are working.**

- Nail excellent customer service. With every possible communication channel covered by Datasharp Voice for Teams, **your team can be responsive, productive and make your customers very happy.**

## The perfect set up, what we offer...

- Unlimited support with our team of super smart, super lovely **Gold accredited Microsoft engineers**.
- **A 'turnkey' solution.** If you need it, we can manage all of your communications, IT and connectivity services, taking the stress out of those 'I can't connect!' moments.
- **Serious expertise in communications, connectivity and IT.** We don't pass the buck because we have the skills in house.
- And of course, you'll **get access to great pricing** on any of your new connectivity upgrades. **Enjoy faster connection speeds for all of your team.**

## Unique to Datasharp Voice for Teams

- **Centralised voicemail management** - we can roll out standardised voicemail greetings to all of your staff with a choice of language or accent, and update this at any time.
- **Advanced call quality analytics** - we can access very detailed call quality reports within Voice for Teams for any call made. Weird noises on the line? We can review the reports, pinpoint the root cause and recommend measures to resolve it.

## Why choose Microsoft Teams?

There are three main reasons we think this is the best thing to happen to work for a very long time.

- **Teams integrates seamlessly with Office365** - so everything you already know and use regularly will play together nicely.
- **Datasharp Voice for Teams brings everything together in one place** - all of your calls, messages, emails, documents. It just makes work-life so easy.
- **Microsoft is adding new features all the time.** They are committed to making this the best team communication tool and you'll benefit from every upgrade.

# Don't just take our word for it

Microsoft Teams is a robust and easy to use team communication Platform that works seamlessly with your Microsoft Office365 products.

- Teams is Microsoft's fastest growing business app ever (ZDNet)
- It's used by 91 of the Fortune 100 companies (MSPowerUser)
- Microsoft Teams is available in 181 countries, in 44 languages
- Over 183,000 educational institutions are using Microsoft Teams (Microsoft)
- In April 2020, it had 200 million meeting participants in a day
- Microsoft Teams has grown by 894% since the COVID-19 lockdown began (Aternity). That's a higher percentage growth than Zoom, which achieved 667% growth in the same span of time!

Call us on [0800 032 8274](tel:08000328274) or contact our sales team on [sales@datasharp-ic.co.uk](mailto:sales@datasharp-ic.co.uk)

We are here to help you choose the best package, and support you every step of the way. Save money, get communicating. People work better together.

## Support your team further

In and out of the office, we have headsets, handsets and conference speakers that will make communication easier wherever you are working. All of our recommended hardware is optimised for use with Datasharp Voice for Teams.

Headsets are perfect for taking calls wherever you are; conference calls will be effortless with a dedicated speaker or conference phone. If you prefer a traditional handset, you don't have to miss out on Datasharp Voice for Teams - our touch screen handsets let you stay on top of all of your Teams communications, whichever channel they are on.
